

PROJECT GOALS

IDENTIFY EAST-WEST CORRIDORS THAT:

1. Improve mobility for transit dependent populations
 2. Are cost effective and efficient *
 3. Maximize regional transit connectivity
 4. Maximize transit ridership
 5. Respond to travel patterns
 6. Are supported by existing and planned land use
 7. Improve access to employment, institutions, and services
 8. Incorporate safe, convenient, and multimodal access and facilities
- 

Goals were evaluated using demographic, economic, land use, and travel pattern data

*This goal is accounted for at this level of study by measures in other goals. It will be measured independently and in greater detail in later stages of service planning.
